BoothSaver™ 2045
单面粘性膜

Product: BoothSaver™ 2045 Single Tacky Film is coated on one side with a paint-shop safe, residue free, high tack adhesive for quick and easy adhesion to substrates. The top side is a non-adhesive, chemically resistant, environment-friendly film that can be easily cleaned during routine maintenance periods. This film is available in “clear” and “white” and can be used on paint shop floors, conveyors, walls, windows, and equipment to protect from overspray, dirt buildup and paint tracking.

产品： BoothSaver™ 2045 单面粘性膜单面涂布了对喷房安全，无残留物的高粘胶，可方便快速的贴于表面。另一面无粘性、防化学品、对环境无害并便于清洁。该膜有白色和透明两种，可以用在油漆车间的地面、传送带、墙面、窗户和设备上，阻挡油漆过喷、积灰和油垢。

BoothSaver™ 2045
单面粘性膜

Benefits: Protects floors, walls and other surfaces from contamination.
High tack adhesive holds securely to most paint shop substrates.
Easy application and residue free removal.
Safe electrostatic dissipation. Resistant to most paint shop chemicals.
White film improves visibility and brightness.
Solid non-hazardous, PVC free waste.

特点: 在污染之前保护地板墙面和其他表面
高粘度，在大多数表面可以粘牢
使用简便，去除时无残留物
安全的静电弥散性. 抗大多数油漆车间化学品
白色美观明亮
固体无害废弃物，不含 PVC.

Usage: BoothSaver™ 2045 is available in 1.2 x 100m rolls.

- Clean substrate thoroughly with residue free cleaner such as ActoClean™ 111SC.
- Lift edge of film from roll and adhere to substrate.
- Unroll film while using squeegee or “wallpaper roller” (see pic) to help apply film smoothly to surface and minimize wrinkling or bubbles.
- To remove film, simply lift corner and peel away. Fold the outer surface onto itself in order to further seal contaminated layer.
- Dispose of properly as solid, non-hazardous waste.

用法: 该产品每卷 100 米长，1.2 米宽

- 用无残留物的清洗剂（例如 ActoClean™ 111 安全溶剂）彻底清洗表面
- 提起薄膜的一边，粘附于表面
- 用滚筒或刮片（见图）把薄膜贴上去，尽量避免气泡和褶皱
- 去除时提起一角揭除。把外面向内折叠，防止污垢再次污染环境
- 按固体无害垃圾处理
